ABOUT ME.

- I'm lighting guy since 25 years.
- I'm a three children father.
- I'm working all over the world and I'm proud of that !
- I'm always thinking light is made to highlight artists & designers works. Light is nothing without something to light up.
- I'm very interested by new synchronizing technology (Timecode, Midi, Art-net, etc).
- Bored of medias sold with media-server I'm creating my own medias since 2 years. My next step : include more vidéo (as a lighting source) in my designs.

LIGHTING SKILL.

GrandMA 2 system
Hog4 Sysytem
Vectorworks Spotlight
Wysiwyg
After Effects
Photoshop
Cinema 4D

Optical theory knowledge.
Good sense of programming.
Color theory knowledge.
